

Securiguard

Profile

OUR VISION

Our Vision is to be South Africa's leading provider of security, by providing peace of mind through custom security solutions.

OUR MISSION

Committed to offer reliable cost-effective customer orientated intelligent based security services by providing our clients with value-based services and results. Securiguard through its people and processes, will provide the highest quality and most innovative custom security solutions possible by thoroughly understanding our customers' needs and adapt to an ever-evolving industry based on the triangular principals of manpower, technology and procedures.

CORE VALUES

CUSTOMER-DRIVEN

We will be respectful, empathetic, responsive, quality focused, caring and consistent in all customer relations. We will always keep the customer at the forefront of our decisions and our actions.

TEAMWORK

Every member of the Securiguard team will contribute their individual time and talent in a coordinated effort to ensure the company will consistently meet its' strategic goals. We will communicate our Vision, Mission and Values in a clear, consistent and transparent manner so that all team members understand their role and requirements in achieving these goals.

INTEGRITY

In all facets of our business, our actions shall remain consistent. We will gain trust by honouring our commitments, exemplifying honesty and integrity to our customers, our employees and our community.

INNOVATIVE

The products, systems and technologies that we deliver to our customers will represent the leading edge in our industry. We will partner with companies that are forward looking and that provide us with the highest quality custom security solutions available.

ACCOUNTABILITY

Each member of our team agrees to be accountable for ownership of their actions in relation to other members of the team, our various partners and especially to our customers.

OPERATING MODEL

Securiguard offers the full spectrum of risk management solutions encompassing static manpower, dynamic and procedural integrated security solutions. Each solution is uniquely designed to each of our client's specific requirements to prevent losses through proactive and reactive best industry practices. Cost effectiveness is achieved by combining manpower and intelligence based technical security solutions as a holistic approach to prevent and minimize losses.

Securiguard recognizes that each site and situation have a unique risk and threat, so in order to address security in an intelligent and cost-effective manner, integrated electronic solutions are required:

- CCTV solutions (IP and Analogue solutions, ANPR (Automatic number plate recognition))
- Access control systems (card and biometric solutions)
- Intrusion detection systems
- Fire detection systems
- Building management systems
- On and off-site monitoring and surveillance
- IOT (internet of things)
- Integrated management and monitoring systems
- Public address solutions
- Fiber networks
- Control room setups
- Security consulting

MANNED GUARDING

Our company and Security officers are PSIRA compliant and match the profile you're looking for. A friendly smiling face to welcome visitors to your premises, or a more assertive no-nonsense approach to protect your premises on a 24hr bases. Screened, vetted, qualified and experienced, there's lots going on behind the uniform. Our Security Officers can anticipate a problem long before visitors, guests or shoppers suspect a thing. They can diffuse tensions using tact and diplomacy. They respond to difficult situations calmly and quickly.

Manned guarding, is one of our expert fields, we can provide around the clock security for your premises:

- Office blocks
- Industrial Estates
- Factories
- Hospitals
- Schools
- Warehouses
- Retail Shops
- Construction Sites

WE ALSO OFFER THE FOLLOWING SPECIALIZED SERVICES

Armed escorts /Close protection

It's sometimes becomes a requirement, risk dependent to deploy close protection officers due to various associated threats. Securiguard will analyses the level of risk and deploy accordingly.

Our highly trained close protection officers are well affray with protecting their principals in all situations in person and whilst driving. All task is done discretely to suit the operational environment and client status. Our function is to reduce the risks, both specific and non-specific with planning and awareness. Our primary focus is the protection of the principal and to ensure that Securiguard provides comfort, peace of mind and confidence to enable them to go about their business in a normal matter.

Event security and crowd management

Our experienced management and support services team will assist you with any event planning and preparation and, if required, will attend any pre-event safety meetings on your behalf.

Safety is always of paramount concern for events and we are committed to good health and safety working practices. Following a detailed risk assessment, we develop and implement a structured plan that will address all entry and exit criteria, critical area protection, parking facilities and most of all prevent any incident at the event. Six key objectives:

- Deterrence
- Prevention
- Environmental surveillance/monitoring
- Incident preparedness
- Communication preparedness
- Secure the site

Security

Our experienced staffs are professional and efficient in handling the requirements of major organizations involved in public events and exhibitions:

- Sporting events
- Open air and indoor concerts
- Royal and ceremonial events
- Conferences, seminars and AGMs
- Exhibitions
- Strike counter measures

Investigation services

Electronic counter measures (debugging)

Risk and threat analysis

Security policy and procedures

Security strategic plans

Site due diligence and risk assessment prior to deployment of a solution

Network and infrastructure protection

Due to the high demand for nonferrous metals locally and internationally, the requirement for network protection has necessitate the protection of critical infrastructure inclusive of copper cables, copper taps, manhole covers, batteries, communication cables, water pipes etc. Such thefts and sabotage result in service disruption, loss in revenue and degraded status of our infrastructures. Securiguard provides network and infrastructure protection:

- Intelligence lead investigations
- Network detection alarm systems and monitoring
- Guarding and patrolling of infrastructure
- Syndicate profiling, Risk assessment
- Intelligence gathering
- Hot spot, threat and trend analysis
- Joint operations with Law enforcement agencies
- Informer recruitment
- Arrest and prosecutions

Securiguard has a vast experience base and diverse skill set amongst its staff and management which enables us to render a professional comprehensive spectrum of integrated and intelligent based outcome security solution. We are confident that whatever the specific requirement, we at Securiguard can provide your organization with an innovated approach to prevent losses and minimize your associated risks.
